Facts & figures

Founded

1761 (oldest company in the industry)

Branches

Production facilities in 10 countries
Sales companies in 21 countries

Production of wood-cased pencils

2.3 billion graphite and colour pencils a year

Marketing

In more than 120 countries

Employees

6,500 worldwide
1,000 in Germany

Range

Premium products for writing, drawing and creative design as well as cosmetic pencils (OEM)

Family company

Owned by the same family for nine generations

Sustainability at Faber-Castell

Change needs creativity

A sustainable future needs new ideas as well as people who are eager to shape that future in a creative way. We as Faber-Castell are a driving force for sustainable development in our industry: with our products, we motivate people to unleash their creative potential.

As a family-owned business in the ninth generation, we take our responsibility seriously. Sustainability is not a new trend for us, but an integral part of our value culture and a proven success factor in our company's history.

We understand sustainability in ecological, social and economic terms. We are pioneers in the industry with our own certified forest management for securing a long-term source of raw material. But we are also committed to biodiversity, renewable energies, the conservation of resources, equal opportunities and diversity.

As a globally renowned brand company, we see ourselves as a key player in the economy: our actions have a significant impact on both the environment and society.

Wood from certified responsible forestry is the most important raw material for the Faber-Castell product range.

The Faber-Castell Group works on reducing plastics or replacing them with alternative materials in packaging and products.

Faber-Castell offers a wide range of erasers. Erasers are produced under strict quality control and many are PVC-free.

Every product contains valuable raw materials. To extend their lifespans, many products are refillable.

Further information can be found on our sustainability website.
<https://www.faber-castell.com/corporate/sustainability>

Sustainable commitment

Certifications and seals

ISO 9001 / ISO 14001

All production sites in the Faber-Castell Group are certified according to the international norms to ensure that the quality and environmental protection standards are met.

FSC™

More than 90 % of the wood used for the worldwide production of Faber-Castell pencils come from 100 % FSC-certified forests, and thus originate from responsible sources.

PEFC

Faber-Castell uses PEFC-certified wood as an alternative to FSC-certified wood. Both certification schemes ensure the sustainable management and use for forest resources.

Eco Pencil

Timber from certified sustainable forestry (e.g. FSC, PEFC, SFI).

Waterbased Varnish

Faber-Castell was the first manufacturer to introduce the environmentally-friendly water-based varnish technology, which is used for almost all writing instruments produced at the main factory in Stein.

PVC-Free

Faber-Castell offers a wide range of erasers. Erasers with this symbol are produced under strict quality control and are PVC-free.

Refillable

Every product contains valuable raw materials. To extend their usability, many products can be refilled.

Recycled plastic

Faber-Castell works on reducing plastics or replacing them with recycled materials. Products or packaging with this symbol are made from recycled plastics, known as recyclate. For this, plastic waste from industrial production is processed and used as a new raw material in manufacturing.

Recycled cardboard

Faber-Castell works on reducing plastics or replacing them with cardboard or other alternative materials. Packaging with this symbol is made from recycled cardboard.

Our planet. Our actions.

For all Faber-Castell products that have at least one sustainable feature, we want to highlight our commitment to sustainability and provide transparent information about it.

Selective Distribution

110052

Ref. No.	Article	min. order quantity
110052*	Art & Graphic Limited Edition	1
400540		
1100522		

- › Purist design meets premium product quality.
- › The exciting interplay of dark stained wood with a satin matt finish and powder-coated stainless steel gives this exceptional cassette a timeless elegance – an eye-catcher in every studio, office or even at home.
- › The almost 400 selected creative products from the Faber-Castell Art & Graphic range cover the entire fascinating colour palette and guarantee reliable quality for the highest artistic demands.
- › Wood possesses an incomparable wealth of variations thanks to its grain.
- › The box comes in a limited edition of 1,761 and, due to the unique wood grain as well as the serial number, each of the cassettes are one of a kind.

Neo Slim Aluminium

Design for minimalists

- › Particularly slim barrel made of anodised aluminium
- › Spring-loaded metal clip
- › Fountain pen: High-quality stainless steel nib in width (M, F, EF, B), equipped with a cartridge/converter system, fitted with a cartridge
- › Rollerball: Fitted with a black refill with ceramic tip, fast-drying, interchangeable refill, also usable with a fineliner refill
- › Ballpoint pen: Fitted with a black large-capacity refill, line width M

Everyone can master the art of creating new ideas with joy and passion. Develop your own style too - with Neo Slim.

Elda (Fashion Designer)

* Anodising means that the aluminium is treated to form a protective outer layer of oxide. This protective layer gives the NEO Slim Aluminium its special colour and makes it even more robust.
